

Official King Richard School 2017 results - puts us in top 3% of schools nationally and number 1 compared to all state maintained schools!

Progress 8 now judges the school based on how well it has progressed students from how they attained in their KS2 SATS.

King Richard School is, with this new measure, in the top 2.1% of all schools in the UK! Moreover it is the best state maintained school in the UK system! In fact we have achieved a Progress 8 score of 0.75 positive value added.

This in simple terms mean that on average, across all students, in all KS4

subjects, students at KRS in 2017 achieved better than they would have done if they had attended the majority of other UK schools by $\frac{3}{4}$ of a grade, across every exam they took!

It once again shows that in our International context, with students dealing with constant change, our school community of parents, staff and governors have worked together to allow students to be the best they can be.

Other great news to share is that there were students in the 2017 examination year that achieved 2 grades higher on average across all 10 GCSE's taken compared to similar students at UK schools.

With some subjects at KRS managing to achieve grades for students 3 or even 4 above their government predictions, we can now celebrate a great set of results. Confirming our double Outstanding rating from OFSTED. Moreover, if we look at % of students who achieved a level 5 or above in English, Maths and 3 EBACC subjects (another government measure) KRS ranks 33rd out of the 6,550 schools in the country, and 1st of all 1210 state maintained schools!

Talking of OFSTED, they have published figures that show schools rated 'outstanding' have an average Progress 8 score of 0.47, we are almost double that. Any score above 0.50 (only 12% of schools reached this in 2017) is only attained by 5% of schools in the country, and KRS is well above that...

We are looking forward now to working hard with Year 11 students and their families to achieve even better results for them to open up as many doors to an exciting future for them all.
